Boulders

Boulders offer a natural alternative for monuments and signs. Stones vary in size and color, and may be presented with flattened areas, bronze markers or plaques, or polished surfaces. In addition, boulder may be cut, and holes may be cored to allow for placement of cremains, urns or time capsules.

Thank you

for reviewing this presentation. Please contact us if we may help you.

Symbolism
 The rose is symbolic of love and joy, while the cross is symbolic of the love of Christ. Symbols such as these create beautiful testimonies of faith.

Design Options

Many of our monument designs can be customized for you. Options, such as vases, allow loved ones to be remembered with floral arrangements - or cremains may be stored inside.

A Crypt or Mausoleum can be an ideal way to preserve the memory of an individual or an entire family. Crypt designs are available in a variety of configurations, and a walk-in mausoleum can be custom designed for two to eight niches.
